

84TH STREET CLOSED AT I-94

The massive drainage structure work needed to convey the Honey Creek under I-94, at 84th Street, is nearing completion. Crews have begun work on the reconstruction of the 84th Street and I-94 interchange in this area. 84th Street, from Honey Creek Parkway to Kearney Street, as well as the I-94 Westbound entrance and exit ramps, closed October 13, 2014 until Spring 2015. 84th Street, at I-94, will be reconstructed to add turning lanes to and from I-94 and the traffic signals will be upgraded. The entrance and exit ramps to I-94 will also be widened.

Motorists are advised to use Kearney Street, O'Connor Street, 76th Street, 70th Street, 68th Street, WIS 100, Bluemound Road and Greenfield Avenue to get around the closure.
